Can I ask you, do you like scented candles?

Great, would you do me a favor-

I'd like to give you this scented candle and have you give me your opinion.

It's a soy candle that burns 50% longer and is all natural so it doesn't give off the toxins and soot that paraffin candles do.

There is a self-addressed, stamped postcard that I'd like you to send back to me after you've tried the candle. Put it in a votive holder as it liquefies.

Thanks, I really appreciate your help.
